Student ID/s	17001412100 16004660400	Program	BSIT

Proposed Title	Web-Based E-Learning Management System for the Primary Students of Marbel 3 Elementary School
Area of Investigation	<p>The area of investigation focuses on:</p> <p><b>Centralized Learning Materials</b></p> <ul style="list-style-type: none"> <li>• Modules</li> <li>• Quiz/Exams</li> <li>• Assessment</li> </ul> <p><b>Student / Teacher Management</b></p> <ul style="list-style-type: none"> <li>• Student Registration</li> <li>• Course and Curriculum Management</li> <li>• Student and Teacher Administration</li> <li>• Student Data Tracking</li> </ul> <p><b>Enrollment</b></p> <ul style="list-style-type: none"> <li>• Online payment</li> </ul>
Reasons for Choice of Project	The reason of choice for this project is to ensure that primary students would not risk their health just to perform school activities face to face. So, we ought to develop an E-Learning Management System wherein students can easily answer their assessments and perform activities online using gadgets. At the same time, teachers and the school would benefit as well because they can easily generate the student's data.
Importance of the Study	The importance of this study is to carry out efficient distribution of class materials online, makes it easy to organize eLearning contents, provide unlimited access to learning materials, easily track learner's progress and performance, lastly this practice would help student become much flexible in the future.
Target Users/Beneficiary	Primary Students of Marbel 3 Elementary School and the school administration
